Completion Rates (Cohorts 9 and 10):

Student Retention Rate and Student Full Time Graduation rate within 18 and 24 months

1YR Retention Cohort 9 June 2021

* "True" graduation rate cannot be calculated until 24 Mo Completion Term has passed

Pass rates on credentialing examinations and license acquisition (Cohorts:1-6)

The program annually surveys all its graduates and requests updates on examinations taken, pass rates for examinations and certifications and licensing documentation. This data is gathered via an annual survey and review of RI Department of Health, which lists active Licensed Mental Health Counselors in the state. Because this information is based on the voluntary sharing of alumni data and program efforts to review state records, it is necessarily incomplete. As of the writing of this report, 49 graduates have passed the NCMHCE credentialing exam and are Licensed Mental Health Counselors in Rhode Island. Two graduates are Licensed Professional Counselors in Connecticut. This number (54) represents 36% of the 151 eligible graduates from the first six cohorts. (Cohort 6 became eligible in 2023).

Job Placement Rate (Cohorts 38):
